POST SHOW REPORT

6th IPTEX 2020 & 4th GRINDEX 2020

IPTEX-GRINDEX EXPO 2020 was HELD SUCCESSFULLY!

The Sixth edition of IPTEX & the Fourth GRINDEX Expo was organised successfully at the Auto Cluster Expo Centre. The expo was held from 13th to 15th February 2020 and it provided a platform for the growth of regional machine tool industries based in Maharashtra and the Western part of India. The Three-day show, featuring around 75 exhibitors from India, Japan, Korea, Germany, China, Switzerland, Italy, and the USA, showcased the latest technologies in the Gear and Grinding segments.

These dedicated expos unveiled an assemblage of latest products and services displaying most comprehensive emerging technology, latest innovation and developments with best practices from the engineering, machine tools, and the Grinding industry. With over 75 exhibitors from 8 countries, the gear and grinding exhibition attracted over 3750 visitors from various industries such as auto component, automobiles, capital goods, defence, aerospace and railways. The event attracted impressive number of delegates and visitors from the Tier I, Tier II and Tier III cities such as Pune, Nashik, Aurangabad, Satara besides visitors from the neighbouring states of Gujarat, Karnataka, Tamilnadu, Telangana, New Delhi and others.

Exhibitors expressed their willingness to be part of the IPTEX-GRINDEX Expo in the western region again.

They were enthralled by the responses they got from their customers. Many felt that participating in the show was vital not just for sales but also for services. The show enabled them to meet the different regional customers and thereby understand the requirements of the western regional market. Exhibitors also gained access to the untapped customers from the western region especially from Maharashtra and Gujarat.

Testimonial:

Mr. Matthew Croson, President of American Gear Manufacturers' Association (AGMA) said, "It's a big business opportunity to be in India this is my 3rd time in India, people here inspire a lot by their thoughts, working in India is always a good experience and as we all see the Gear Grinding Market is expected to increase rapidly in India 2020". He added further that "innovation is born in a state of alignment with the production of the needs and demands of the customer, or the other way around. In any case, organizations around the globe must continually develop themselves and remain conscious of the needs of the people. The failure to do as such or not being involved in the needs of your company would make your rivals win" he also said, "making new things is something that always creates innovation in your mind, and that's what we're doing here to innovate people's minds with the help of machine and technology."

Charudatta, National Manager Nomoco Maschinentabrik GmbH.

"We are participating in this Exhibition for the 3rd time now. Exhibition organisation is excellent this time also, we enjoyed presence of important customers visiting for this exhibition it saw nice experience & we look forward to participating again & again in this exhibition".

Mr Sandeep Gaikwad, Shanthi Gears Ltd

I am in charge for the business in Pune and Goa. "I am associated with Shanthi Gears since 2006. It was very good response over here in this exhibition & we happened to meet most of our Customers & most of our suppliers also came & interacted with us. We had good experience with of them. Iptex is not new for us we have participated & have good experience. Providing very Good platform with our key customers & very nice to be with you from last 3 days".

Sonal Dhar, Matchless Machines & Technology.

"I head the Sales & Marketing in Matchless Machines. We have been associated with IPTEX -GRINDEX ever since its inception. This the first time IPTEX-GRINDEX is been held in Pune instead of Mumbai. We have had good experience & we will remain to be associated with it".

Toyoda Micromatic Machinery India Pvt Ltd

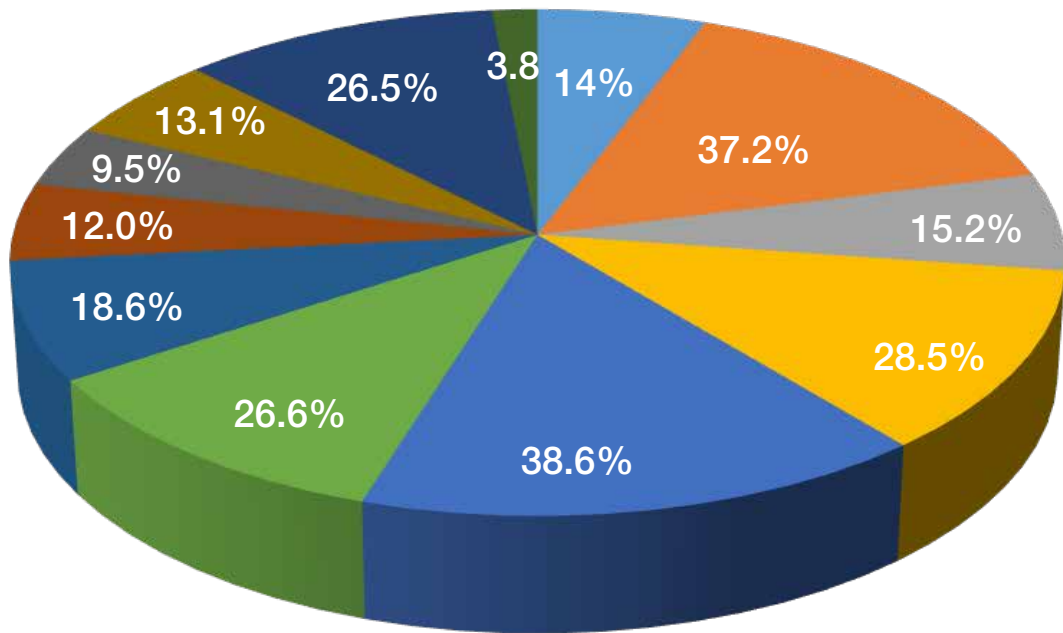

Pankaj Chand, I am assistant Manager sales for Micromatic Machinery India Pvt Ltd. "Firstly I would like to Thank the organisers for getting the exhibitions organised. All though the size is not like Imtex its very specific & we got good response. Being first time participant, we did not expect this kind of response. It was encouraging as we received new customers. We would like to participate in the next edition in a big way".

Kapp Niles India Technologies Pvt Ltd

Rohit Pereira Managing Director of Kapp Niles India Technologies Pvt Ltd. "Kapp Niles belongs to the group of Kapp Niles in Germany. We are very happy with the response in the exhibition. It's what we accepted & even more than what we expected. We would like to thank the organiser for the exhibition & we hope to be here again for the next exhibition. In general, it was overall a very good exhibition".
